IV. CHANGES TO PERMIT	2
V. PUBLIC NOTICE COMMENTS	2

I. TYPE OF PERMIT

- A. Permit Type:** Minor Industrial Permit-Minor Amendment
- B. Discharge To:** Surface Water

II. FACILITY INFORMATION

- A. SIC Code:** 1222 (Coal Underground)
- B. Facility Classification:** Class D per Section 100.5.2 of the Water and Wastewater Facility Operator Certification Requirements
- C. Facility Location:** 1303 Routt County Rd 107, Craig, CO 81626,
Latitude: 40° 25'41.69", Longitude: 107° 39' 11.12"
- D. Permitted Feature:** Outfall 003, mine dewatering to a sedimentation basin prior to discharge to the Williams Fork
Outfall 022, spoils springs to a channel through vegetative filter prior to discharging to the Williams Fork
Outfalls 011-013, 015, 016, 018-021, surface runoff from vegetated topsoil stockpile areas
Outfall 024, mine dewatering to a sedimentation basin prior to discharge to the Williams Fork
- E. Facility Flows:** 4.03 MGD

III. PURPOSE OF MODIFICATION

This modification is being completed to address the compliance schedule date issue with the temperature meters installation. The facility sent in a compliance schedule item on April 30, 2013 and indicated that the temperature meters are on back order and will be available

around May 29, 2013. In response to this, the Division contacted the facility representative and agreed to extend the compliance schedule for temperature meter installation in this isolated case.

IV. CHANGES TO PERMIT

The Division change the final temperature meter installation date to August 1, 2013.
